Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle. n6tf
Benton's Liniment for sale at all drug stores.

A. Livingston now practically controls the wholesale liquor trade of the city. He is continually adding to his stock and sells only standard brands. He is also introducing some excellent California wines to the people of Carson, as well as foreign and domestic cigars of the finest quality. Drop in and inspect his stock. d 13 tf

ALL SORTS.

Wind seems to be all the go in Carson now.

They have begun to cut the grass crop in the Capitol square.

The Silver Club organized in Hawthorne Saturday night has over 120 members on the roll.

The Humboldt River is bank full, but in consequence of the cold weather it is not rising very fast.

Persons wishing the use of cemetery water will call at Secretary McCabe's office and get their receipts.

A couple of the rank and file of the Salvation Army came to blows during the meeting recently at Reno.

The Brazzanovich case went to the jury in Hawthorne yesterday at 5 p. m. The general opinion is acquittal or a disagreement.

A new lot of Concord harness has just been received at Uren's. They are the latest patterns and warranted to be all that is claimed for them.

Why do not some of the prominent Ormsby County politicians come to the silver meetings and lift their voice unreservedly in favor of the white metal?

Dr. J. J. Meiggs of Elko while amputating a man's leg Tuesday accidentally pricked his finger and blood poisoning set in. The Doctor's condition is very serious.

The Silver State says 250 head of fine beef cattle said to be the best shipped from Winnemucca this year will be shipped today to Miller and Leete, San Francisco.

A Reno justice of the peace the other day fined Gabe Hoskins one dollar, for disturbing the peace by holding band practice in his rooms adjoining a lodging house.

Judge Currier, who has been in Nye county on professional business, says utter desolation prevails in many hitherto lively mining camps in the southern part of the State.

Dr. W. E. Hopkins, late Surgeon United States Army, is now associated with Dr. Powers in the treatment of diseases of Eye, Ear, Throat and Nose, under the name of Drs. Powers and Hopkins. m281m.

Colorado speaks in no uncertain voice regarding Harrison's attitude on the silver question. A resolution endorsing Harrison's administration was offered and killed by a vote of 623 to 2.

The Tribune thinks the opposition to the new school house is a piece of spite work against Mr. Coffin. Will some one explain just what Mr. Coffin's connection with the new scheme amounts to.

There are men in this city who will get out on in the street and fight if anybody tries to beat them out of half a dollar, but will let the gold bugs of the East do them out of several hundred dollars a year and fear to make a protest.

A good many people are advocating the vacant lot opposite the brewery for the new school house. It might be a good plan to discuss all the locations proposed before election but above all things let us get at the real location the cost and all about it. Everybody is asking for light on the subject.

William C. Gregg, an old resident of Gold Run district, Humboldt county, is supposed to be insane. He and his wife lived twenty miles away from the nearest neighbors and Mrs. Gregg had not seen a white woman for fifteen years. The Silver State says reverses of fortune and isolation are supposed to have unsettled Mr. Gregg's.

When the school house bonds were proposed two years ago, they denounced with the cry of "Job" by the same parties who now are so anxious to handle the \$60,000.

The cry of job then was false, but the talk of job now will be regarded as well founded if the people do not get more light on the subject and that very soon.

The Democrats in Oregon, in their State convention, demand that "All money issued by the United States shall be of equal monetary value and of equal purchasing power." That places them in an easy position. They can say to the free coinage man, "Of course that is what we want; didn't we say so in our platform?" They can say to Wall street "Of course we are with you. We want silver money, but we want it just as good as gold." It is a successful framing of words to meet any emergency necessary.

Gunning in Nevada.

A representative of one of the great Eastern dailies who had become "run down" in health, struck one of the booming mining towns in Nevada last week, and after rigging himself out in a regulation hunting suit, shouldered his rifle and started up a narrow trail in search of a festive grizzly or frisky deer. His hunting experience is best told in his own words.

"I had left the camp about two miles down the valley when I suddenly came upon a sharp featured, gray whiskered fellow seated upon a boulder with a rifle lying across his knees and two six-shooters lying beside him.

"Good morning!" I said dropping gun and seating myself on a pile of rocks near him.

"How are ye," he replied.

"Have you seen any bear or deer around here?" I asked.

"Nope," was his laconic reply.

"Rabbits?"

"Nope," in a surly tone.

"Well," I continued, "what are you hunting?"

"I ain't huntin," he replied, with a grim smile, "Mike Brady's huntin."

"What is he hunting?" I asked with considerable curiosity.

"Me, I reckon," he answered with a tightening grip on his rifle, "an' I'm waiting for him to find me. We are goin' to settle a little dispute about this claim," and a comprehensive sweep of his hand suggested the location in dispute, "an' if you're gunning for anything smaller 'an a man I reckon you'd better keep on up the trail, for it's goin' to be rather warm around here when Mike shows up." I took his advice and continued my quest for four footed game, as it occurred to me that gunning in Nevada is sometimes productive of the best results when conducted without spectators.

Strengthening.

Speaking of the Russian famine we are reminded that there is an article of butter in this town that ought to be sent. The Good Book says that a certain prophet took one single meal, and on the strength of it traveled forty days. There is an article of butter in this town that an ounce of it would beat the prophets food; a pound of it would scare the famine itself away.—Austin Advocate.

If the Austin people would buy Nevada Creamery butter instead of sending to Salt Lake for Mormon axle grease, they would not be in such a fix.

The Nye County Way.

The Nye county silver people take the bull by the horns and say what they mean on the silver question. The following was passed unanimously by the Nye County Silver Club at Belmont.

Resolved, That we will not support any candidate for Congress or President of the United States who is not in favor of the free and unlimited coinage of silver at the ratio formerly fixed by law.

Victor.

In another column will be found the advertisement of Victor, the trotting stallion. He will be found at Raycraft's stables this summer.

He has sired some wonderful colts in California and that to when bred to very cold blooded mares. Such a sire ought to produce some wonderful stayers, as the trade never saw a horse of such enduring qualities in a race as the old reliable Victor.

The Fire Pail.

Millard the plumber is the agent for a new fire extinguisher. It is a covered pail filled with water with some chemical in the top.

In case of fire you smash in the lid and the chemical mingling with the water will put out any incipient fire.

For fine watch and jewelry repairing go to Golden's. We are receiving new and elegant designs in jewelry every day. sttf

Mrs. K. Knowles desires to inform the public that for the next 20 days she will dispose of millinery at cost, as she is desirous of making a change of business. Now is the time to get bargains in trimmed and untrimmed hats, feathers, flowers, and in fact, everything in her line. All goods sold without reserve. This is a bona fide sale, as the lady has business interests in San Francisco which require her attention.

For sale at a bargain Nutwood and Wilkes stock, two fillies, one yearling, one four year old, one gelding four years old, also one Hambletonian and Morgan mare, eight years old. For particulars enquire at this office. m24tf

Stewart's Idea.

To the weak kneed employees of the Mint who don't want to declare themselves on the silver question we commend the following extract from a letter to the Denver News:

The only remedy is a bold, aggressive, independent movement composed of men who cannot be bought with money or influenced by the promise of political preferment. The people of the United States love liberty and independence and detest fraud, oppression and tyranny; and if once united in a common effort to dethrone King Gold, there is no resisting their power.

The time for stump orators of the respective parties attempting to show that their party is in favor of silver and the other party opposed to it, is past. Both parties are controlled by the gold trust and their leaders are the secret beneficiaries of bounties of gold monopoly or the cowardly slaves of the money power. Nothing is gained by elevating to office one class of agents of Lombard and Wall streets rather than another class. The gold trust uses every name and every disguise to deceive and mislead the voters. Yours very truly,

WM. M. STEWART.

Andy Horan's Ride.

After the dance Wednesday night Andy Horan an Empire boy took Otto Warner's horse and buckboard to return to Empire by the prison road. After passing the penitentiary the animal became frightened and started toward Empire on the dead jump. Andy stayed with the reins as long as possible but the wheels struck an obstacle in the road raising Horan several feet off his base.

He struck on his head and shoulders, tearing the right ear off so that it hung by the lobe, and also badly bruising his eyes and nose. Dr. Guinan attended the unfortunate boy and took seven stitches in the shattered ear, besides dressing his head carefully. Andy looks like he had his head in a boxing glove but will be all right in a few days.

Plenses Everybody.

Hardly any one ever received an appointment in the Mint that a number of envious people did not growl. The growling is happily absent in the case of Miss Lou Wright the daughter of Dan De Quill the veteran journalist.

Everybody wants to congratulate her and everyone speaks of it as a rattling good appointment.

Closing His Office.

Dr. Calhoun the dentist has concluded to spend the summer months in his dental circuit and the office will be closed after May 5th, until further notice. He also desires to dispose of office and household furniture cheap for cash. Enquire at office, Ormsby block. ap29 1w

Keogh, formerly of Virginia, knocked out Patsey Cardiff in Portland in thirteen rounds.

Spring Ball.

Walter Cook is along side the seasons with his social gatherings at the hospitable ranch and will turn loose a dance and Supper on the evening of April the 30th. Plenty of Stable room, good music and delectable viands. A 23

Minstrels.

The Reno Minstrels, under the management of Mr. Hyman Fredrick will give an entertainment in this city on the 11th of May. The members of the troupe are all residents of Reno.

Sale of Blooded Stock.

About the middle of next month John Sweeney will sell at his ranch at public auction about fifty fine Gibraltar fillies in foal to Alpha and Triumph, and a number of yearlings and two-years-olds by Gibraltar. The sale will be without reserve and there ought to be a large attendance, as this will be the last sale of Gibraltar colts in this State, as Gibraltar will be taken East after the sale.
